DIVISION OF
OIL, GAS & MINING

Dear Mr. Jackson:

We have received and reviewed your plan of operations for road work on the Dirty Devil mining claim group located in Emery County, Utah and we have determined that your plan is incomplete.

We need a description of the equipment to be used, including the blade width if applicable. A more detailed description of the proposed activity is also needed. Are you blading the entire length of the road or just certain portions?

We also need a map showing the locations of the roads which are to be maintained. The same access roads should not be included on both your plan and your brother's plan. The length and width of each road should be included in the plan.

It will take at least 30 days to review and process your plan of operations once the plan is considered to be complete. A reclamation bond will also be required as part of the approval for the bond. If you have any questions, contact Neil Simmons of my staff at 801-637-4584.

Sincerely,

PENELOPE J. SMALLEY

Area Manager
